

Digital Learning- Grade Recovery

Focus:

- 1) If you **did not** meet mastery on Unit 2A: Systems of Linear Equations test by earning below a 70%, you are to complete assignments related to these concepts.
- 2) If you **met** mastery on Unit 2A: Systems of Linear Equations test by earning a 70% or above, you are to complete assignments on the current concepts- exponential functions and review of linear and quadratic functions **ONLY**.
- 3) Activities completed correctly and, in their entirety, will earn additional points on your Unit 2A grade.

Directions:

- 1) Choose **four (4)** activities to complete.
 - a. You can only do **one (1)** “Express Yourself” Activity
- 2) Complete and show work on a separate sheet of paper.
- 3) Use your Math Interactive Notebook and videos on the blog if you need a refresher

<p>EXPRESS YOURSELF Create an original poem/rap/song to help others learn a concept in this unit (solving systems by elimination, substitution, graphing, slope) *Bonus points if you record and share with me! *</p>	<p>Solve using the <u>Elimination method</u></p>	<p>Systems of Equations: USA Testprep</p>
<p><u>Exponential Functions</u></p>	<p>EXPRESS YOURSELF Create an original video to help others learn a concept in this unit (solving systems by elimination, substitution, graphing, slope)</p>	<p>Solve by <u>Graphing method</u></p>
<p>Solve using the <u>Substitution method</u></p>	<p><u>Review Linear and Quadratic Functions</u></p>	<p>EXPRESS YOURSELF Create an original art piece (drawing, collage, etc.) to help others learn a concept in this unit (solving systems by elimination, substitution, graphing, slope)</p>
